

One piece at a time: Solving the AI writing puzzle

AI-generated writing has transformed every aspect of our lives and the classroom is no exception. Identifying AI writing in students' submissions is just one piece in the broader, complex, ever-evolving AI writing puzzle. **Click a tile to learn more.**

97%

of institutions do not have a formal policy for using AI tools*

71%

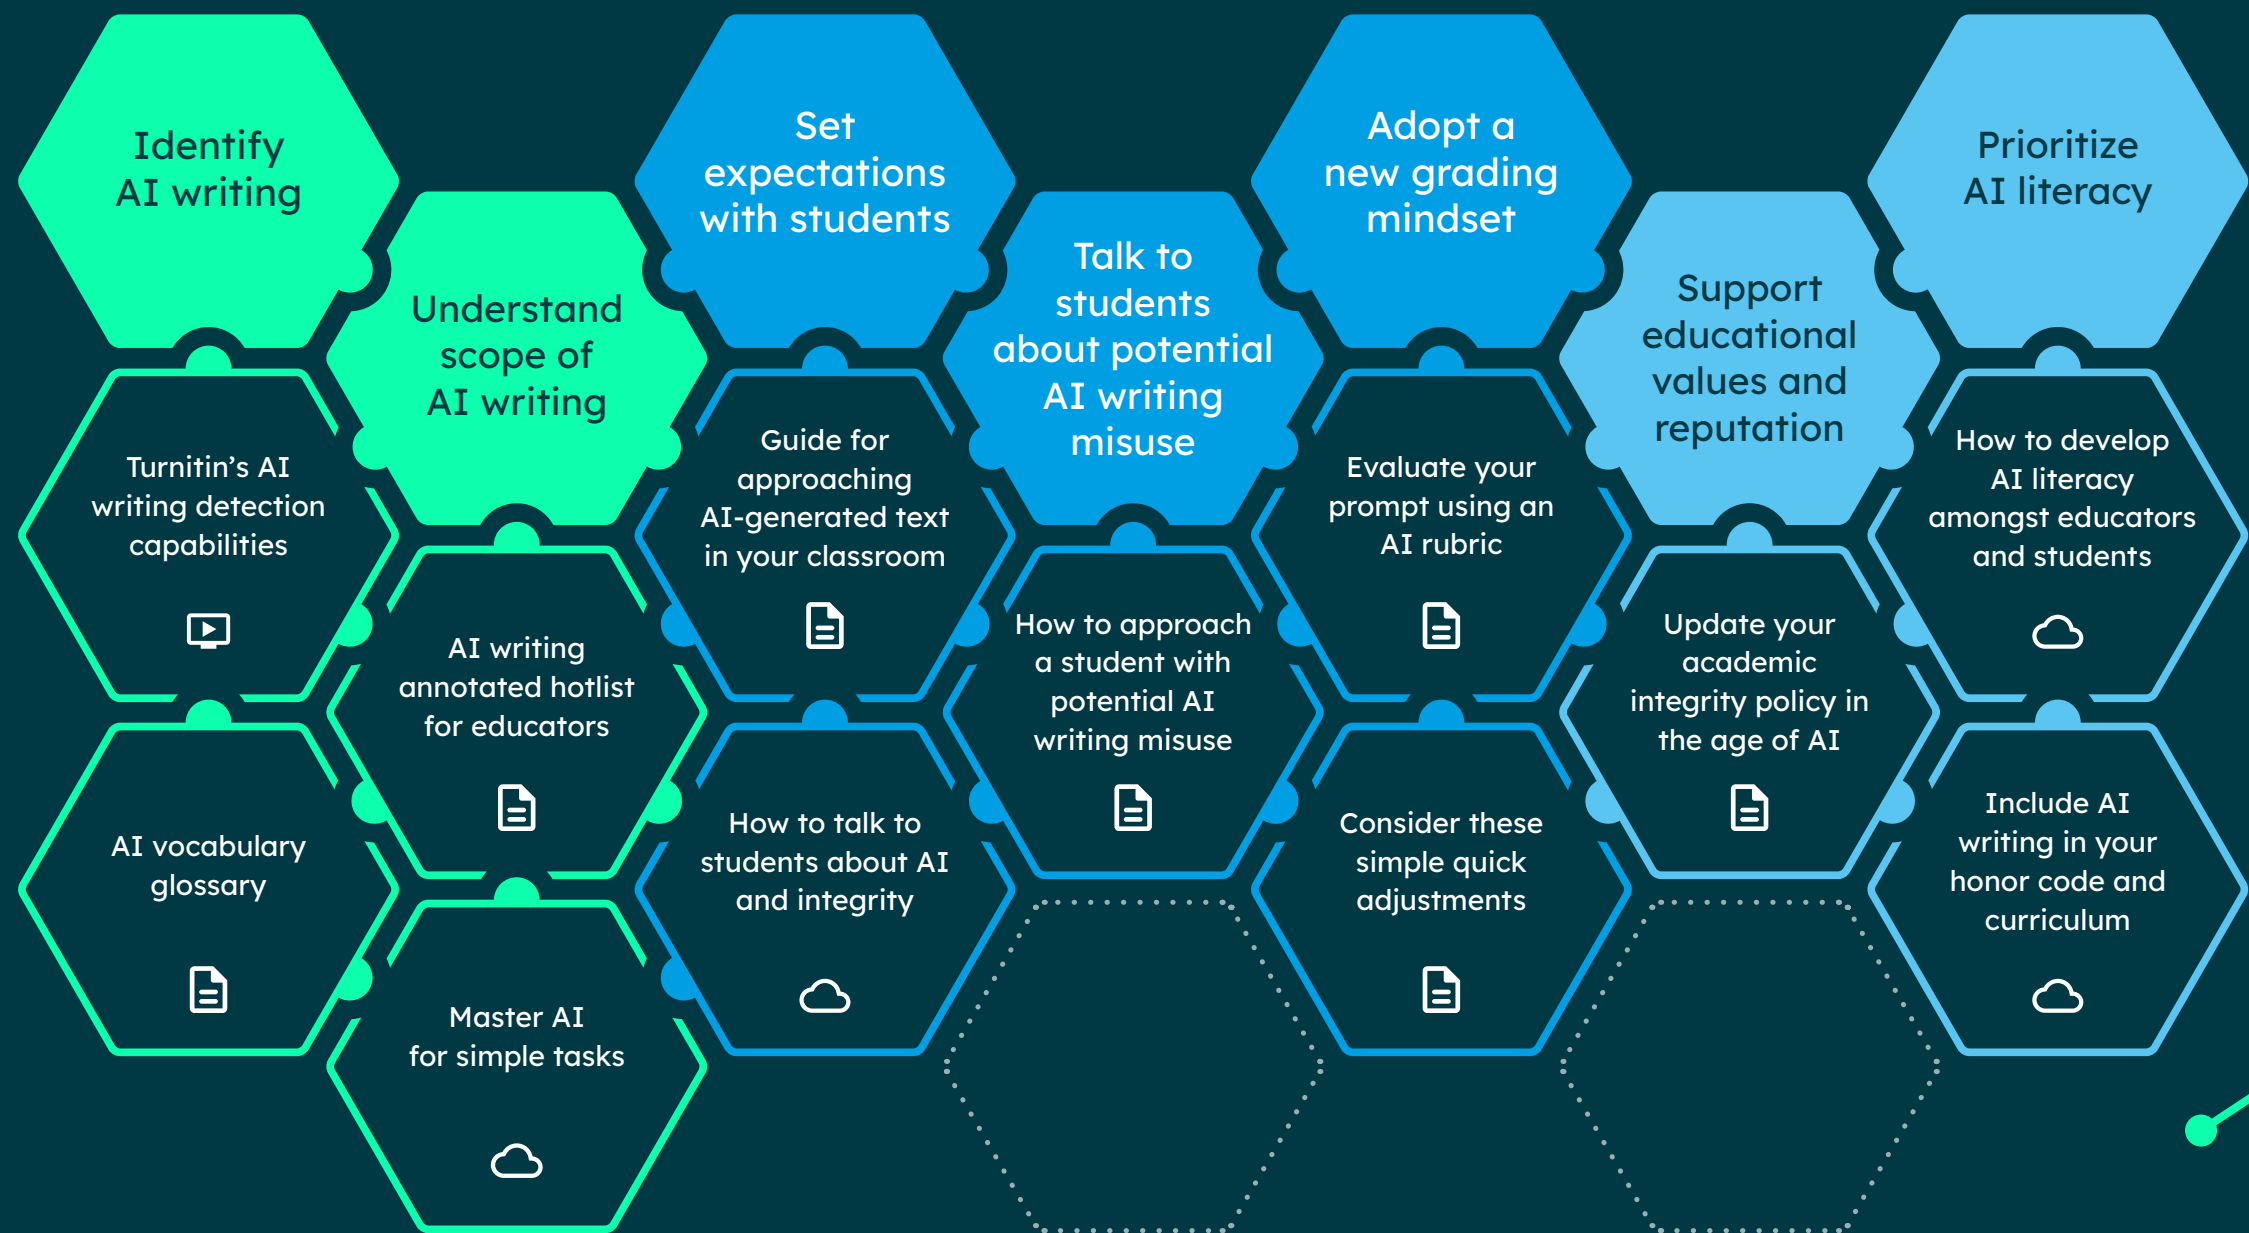

of instructors/administrators have never used AI writing tools*

Hallucinations:

AI-generated writing makes things up, so fact-check and validate references
